

Java Installation Assignment

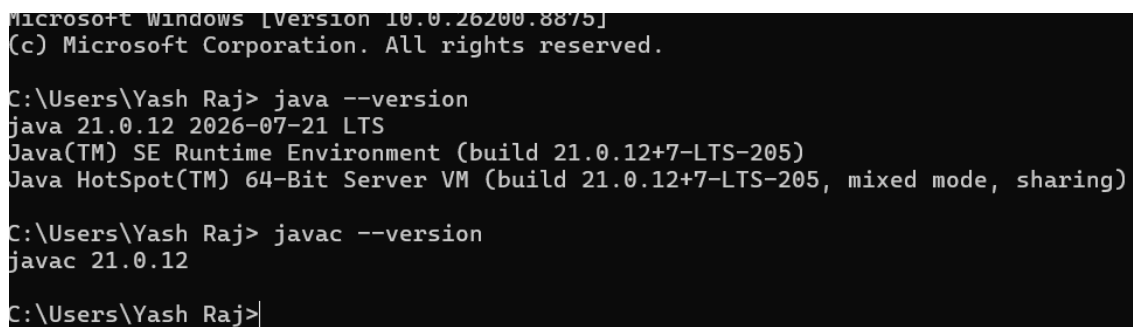

Name: Yash raj

Roll: 25scs1003005512

1. Installation Verification

Paste screenshots below after completing the installation:

- java -version
- javac -version

```
Microsoft Windows [Version 10.0.26200.8875]
(c) Microsoft Corporation. All rights reserved.

C:\Users\Yash Raj> java --version
java 21.0.12 2026-07-21 LTS
Java(TM) SE Runtime Environment (build 21.0.12+7-LTS-205)
Java HotSpot(TM) 64-Bit Server VM (build 21.0.12+7-LTS-205, mixed mode, sharing)

C:\Users\Yash Raj> javac --version
javac 21.0.12

C:\Users\Yash Raj>
```

2. Brief Answers

What is JDK?

JDK (Java Development Kit) is the software development kit used to develop Java applications. It includes the JRE, compiler (javac), debugger, and other development tools.

What is JVM?

JVM (Java Virtual Machine) is the component that executes Java bytecode. It makes Java programs platform-independent by running the same bytecode on different operating systems.

What is JRE?

JRE (Java Runtime Environment) provides the libraries and runtime required to run Java applications. It does not include development tools such as the Java compiler.

Difference between JDK, JRE, and JVM.

JDK is for developing and running Java programs. JRE is for running Java programs only. JVM is the virtual machine inside the JRE that executes Java bytecode.

3. Submission Checklist

Screenshots of 'java -version' and 'javac -version' added
